PROFILE SUMMARY

Final year Computer Science student at Vellore Institute of Technology with strong foundations in programming and software development. Experienced in Python, C++, and web technologies with hands-on experience in computer vision and machine learning projects. Demonstrated skills in driver safety systems and automated attendance solutions, seeking to leverage technical expertise in innovative software development roles.

EDUCATION

VIT Bhopal University *Bhopal, India*

Bachelor of Technology in Computer Science & Engineering 2023 -- 2027

- 9.14 CGPA (Current)

Higher Secondary School Certificate (CBSE) 2021-2023

- 81%

Secondary School Certificate (CBSE) 2019-2021

- 87.6%

SKILLS

Technical: Python, C, C++, Java, JavaScript, Data Structures & Algorithms, Computer Vision, Machine Learning

Tools: VS Code, Git & GitHub, MySQL, HTML5, CSS3, React

CERTIFICATIONS

- The Bits and Bytes of Computer Networking by Google via Coursera – October, 2024 (Credential ID: X07EX3YIDTFY)
- Introduction to Programming Using Python by Vityarthi – September, 2024
- Programming Using Java by Vityarthi – April, 2024
- Fundamentals of AI and ML by Vityarthi – December, 2023
- MATLAB Certification by MATLAB Academy – August, 2023

PROJECTS

Automatic Attendance Tracker [January-April 2025] | [Project Link](#)

- Created an automated attendance management system using facial recognition technology for efficient attendance tracking
- Implemented face detection and recognition algorithms to identify and mark attendance of individuals automatically
- Integrated database connectivity for storing and managing attendance records, reducing manual effort and improving accuracy

Story Generator using Generative AI [May-June 2025] | [Project link](#)

- Developed an AI-powered story generator using dual model architecture with fine-tuned GPT-2 and Llama-3.2-1B-Instruct models
- Implemented interactive web interface using Gradio with customizable parameters for creativity control and real-time generation
- Achieved 85% coherence rate in generated narratives with response times under 15 seconds, optimized for both GPU and CPU deployment

ACHIEVEMENTS

- Selected for Internal Round in Smart India Hackathon 2024 with innovative sign language learning solution for deaf and mute community
- Active participation in Model United Nations (VITBMUN) demonstrating communication and diplomatic skills
- Led a team of 3 to top 5% in Zelestra X AWS ML Ascend Challenge – 2nd Edition
